Our associates have been independently active in the concert industry for over 35 years. We would like to offer the resulting unique relationships we enjoy with stars in all categories to companies interested in hosting events for their customers or employees. Charity events are also included in our range of tasks. Not only can we take over the entire program planning for you - if desired, we also organise the complete event, find the right location, valet parking, limousine service, security, famous presenters and exclusive catering possibilities.
